CANADA · 5 Day Seminar

A biological approach
to Implantology

Course

Dr. Eduardo Anitua

MD · DDS · PHD

The **BTI seminar** includes a **5-day intensive course** presenting a new Biological Approach to Implantology based on the most recent data and techniques developed by the Biotechnology Institute.

The educational objective of the course is to offer the attendees an innovative working method and predictable protocols which are the result of advanced scientific research and extensive clinical experience. The seminars are based on a complete and multidisciplinary approach starting from the treatment planning phase to bone regeneration techniques. They also focus on necessary protocols for the treatment of complex rehabilitations through live surgeries in closed circuit, practical workshops and specialized conferences coordinated by Dr. E. Anitua and his team of experts.

Doctors attending the seminars will obtain customized training and will be exposed to the modern facilities offered by the prestigious BTI Training Center "Instituto Eduardo Anitua" in Vitoria-Gasteiz (SPAIN)."

SEMINAR PROGRAM

BTI Biotechnology:

The approach to implantology according to the knowledge and techniques of the Biotechnology Institute.

Live Surgeries of Complex Rehabilitations with Dr. E. Anitua.

Diagnosis and Digital Treatment Planning.

A Biological Approach to Implant Osteotomy Drilling technique without irrigation and implants insertion protocols.

ENDORET[®] Technology:

Growth factors, scientific bases and clinical works.

Advanced Surgical Techniques:

Treatment of atrophic jaws (expansion and split techniques, sinus lift, vertical growth...).

Innovative concepts in biomechanics (short implants, immediate loading...).

Surgical Technique for Sinus Lift: Indications and protocol for sinus lift.

Complications and complications management in sinus lift.

Alternative approach to sinus lift (short implants and crestal approach).

Immediate Loading and Complex Rehabilitation using the BTI Technique.

Indications and protocols for immediate loading.

Planning single tooth, partial and full edentulism rehabilitation.

CLINICAL EXPERIENCE REQUIRED

Odontology, Stomatology, Maxillofacial Surgery

SEMINAR DATES

Schedule 9.00 a.m. - 7.00 p.m.

April

04-08th

✓ Promo Code *** **

Photos and videotaping are prohibited during the seminars

Location

Eduardo Anitua institute

BTI Training Centre
Vitoria-Gasteiz (Álava) Spain

Information and registration

SYNCA

337 Rue Marion,
Repentigny, QC J5Z 4W8
Tel: 1 (800) 667-9622 · Fax: 1 (800) 554-1021
Mail: abhi.b@synca.com

Tuition

Enrollment tuition C\$ 6370

Includes professional information packets, research articles, transfer from and to Bilbao International Airport, 1-day wine tour in Rioja, 7 nights accommodation (breakfast included), coffee breaks, lunches, welcome and farewell events.

Cancellation policy

Cancellations must be made in writing **40 days** prior to the event for full tuition refund, after that date there will be a **C\$1,950** cancellation fee. A **C\$130** administrative fee will be charged for substituting a registrant.

HANDS ON

- ENDORET® technology: obtaining protocol.
- ENDORET® manipulation: obtaining grafts and fibrin membranes.
- Drilling protocol and implant placement and extraction on models.
- Treatment planning using BTI Scan® III software.
- Block Grafts.

CERTIFICATION

Participants will receive a Certificate of Attendance (40 CEU credits).

Sponsored by:

BTI of North America

*Approved PACE Program Provider FAGD/MAGD
Credit Approval does not imply acceptance by a
state or provincial board of dentistry or AGD
endorsement (4/1/2019 to 3/31/2022).*

* Given the limited number of seats enrollment is compulsory
