

CADI® Imaging software & equipments

Synca is proud to offer directly to you, once again, its CADI® software, CADI® Optimum digital x-rays sensors and CADI® Optiview cameras.

You now benefit from:

- Better prices
- Same great service
- Same remote support
- Better replacement programs
- And many exciting new offerings to come...

THE SYNCA DIFFERENCE: PEACE-OF-MIND PROGRAM!

The world's finest digital x-ray and imaging software is now available to you for one low monthly subscription and support fee. There is no up-front license to purchase - there are no hidden fees.

ADVANTAGES & BENEFITS:

- USE OF CADI® software and upgrades
- FREE telephone and remote support / FREE loaner program
- EXCLUSIVE discounts on equipment
- EXCLUSIVE discounts for replacement of non-warranty defects during the warranty period

ROBUST QUALITY

- Designed and built in the same world-leading high-tech production facility that produces leading satellite and space telescope imagery
- High signal-to-noise ratio increases image clarity
- Optimal line pairs for more diagnostic ability
- Cesium iodide scintillation preserves an exceptionally fine spatial resolution that is present in the x-ray pattern

REPLACE THE CABLE, NOT THE SENSOR

CADI[®] Optimum sensors are designed so that the cable can be replaced for a fraction of the cost of a new sensor.

SAVE \$3744!

Purchase any 2-CADI[®] Optimum sensors at Synca new reduced prices and get the complete CADI[®] software license suite - up to 5 stations-**FREE!**

POWERGO Control Unit:

Material:	Aluminum
Weight:	155 g
Compatible LED Lights:	Total Pure & Total Intense
Light intensity settings:	High, Medium, and Low
Operating time:	8-17 hours (Varies with light intensity)
Charging time:	Approx. 2-2.5 hours
Battery Type:	21,700 Lithium-ion rechargeable battery
Warranty:	PowerGo Unit: 3 years PowerGo Battery: 1 year

TOTAL INTENSE lamp:

- Made of high quality aircraft aluminum
- Compatible with PowerGo & Xtend systems
- Operation time of 8 to 17 hours
- 18 g (lamp weight with frame part)
- **6,500 K (light colour)**
- **40,400 Lux (Max light intensity at 25 cm)**
- 3 years warranty

TOTAL PURE lamp:

- Made of high quality aircraft aluminum
- Compatible with PowerGo & Xtend systems
- Operation time of 8 to 17 hours
- 18 g (lamp weight with frame part)
- **5,000 K (light colour)**
- **17,400 Lux (Max light intensity at 25 cm)**
- 3 years warranty

- CUSTOM DESIGNED FRAMES
- CUSTOM VISUAL SUPERIORTIES
- CUSTOM DESIGNED MEASUREMENTS

EFFECTIVE & AFFORDABLE WHITENING PROGRAMS

SYNCA WHITENING PROGRAM:

Let's work together to design the whitening program that best meets the needs of your practice.

Whitening is often the starting point of more comprehensive treatment plans, and is the single most requested esthetic treatment.

- **Brilliance 20:** in-office 20 min. treatment
- **Brilliance Xpress:** rapid take-home treatment
- **Brilliance:** traditional take-home treatment

HANDS FREE SUCTION SYSTEM!

EZ DAM® ISOLATION SYSTEM: A full time virtual assistant

- Removal of excess fluids ✓
- Removal of debris ✓
- Tongue and cheek control ✓
- No more cotton rolls ✓
- No more rubber dam ✓

EZ DAM® also provides a smoother experience for hygienists that are working alone to routine scaling and cleaning, placing sealants, or any restorative work.

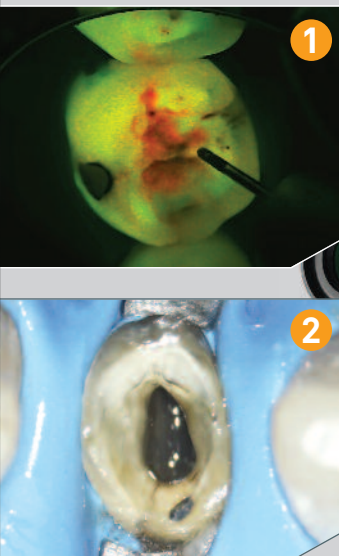

NEW!

MORE CUSTOMISABLE THEN EVER!

- 6 frames available
- 3 loupe ocular colors
- 24 frame colors
- 17 frame sizes
- 10 temple arm lengths
- 6 temple tip colors

AWARDED FOR DESIGN, DESIGNED FOR DENTISTS!

- “Award-Winning” MonoGlobe design for simple manipulation
- Plano apochromatic lens correction for incredible clarity & light transmission
- 30° Ergotube with binocular inclination of 200° and rotation of 360°
- Up to 4K adaptors for powerful digital cameras
- **NEW!** Smartphone adaptors
- Largest VarioFocus depth of field from 210–470 mm
- Two TWIN models:
 1. Blue Fluorescent option
 2. Boost Twin White LED option

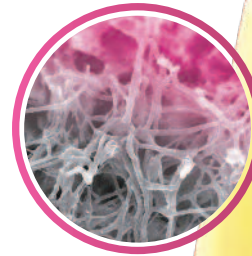

- More than 5000 m² devoted to training, clinical practice and research
- More than 40 scientific collaboration agreements with universities and research institutes all over the world
- More than 1200 students per year

- Collaboration with experts from different countries in different fields of medicine for the development of clinically effective protocols
- More than 150 indexed scientific publications back the effectiveness and biosafety of ENDORET[®] PRGF[®]
- 20% of the workforce dedicated to research
- More than 20 years of research in tissue regeneration

A biological approach to Implantology

- Predictable
- Versatile
- Reversible

5-DAY SPAIN COURSE

Learn simplified and predictable treatment approaches for HORIZONTAL & VERTICAL atrophies

- Horizontal & vertical growth using PRGF
- Biomechanics of short, x-short implants & immediate loading
- Planning single, partial and full edentulism rehabilitation
- Expansion, splitting / Complication management
- and much more...

MORE INFO

BIOLIGHT® DUAL & DT POST®

- Advanced fiber endodontic double taper posts
- The overall shape offers a superior adaptation to the canal, minimizes the removal of dentin, and keeps the resin cement layer (the weakest link) to an absolute minimum

SAVE UP TO \$187

1. Buy 1 Biolight® DUAL kit – get 1 CORE DC **FREE!**
2. Buy 4 refills – get 1 **FREE!** (Promo 4+1)

FIBER FORCE® DiSK

- Epoxy-, Metal-, BPA-free
- Creates chemical bond
- Highly radiopaque
- Highly biocompatible
- Highly esthetic
- Ideal physical properties
- High tensile strength
- High fatigue resistance
- Most compatible modulus of elasticity
- Extremely light weight

FAST SPLINT MATRIX®

- Ideal for orthodontic lingual retainers
- Ideal for periodontic and traumatic splinting
- Ideal for single tooth space maintainers/flippers

The use of glass fibers versus metallic options is attractive because they allow for an effective bond to tooth structures.

PROMO 4+1 (SAVE \$85)

Buy 4 Fast Splint Matrix® refills and get 1 **FREE!**

ADVANTAGES & BENEFITS:

- Peripheral reinforcement vs. Master post has shown superior fracture resistance
- Multi-post procedure increases bond strengths significantly due to increased total surface area
- Increase the fracture toughness of your restorations vs. unsupported endo-core restorations
- Ideal design perfect for all shapes of canals
- No-drilling or any reduction of remaining tooth structure
- Posts are easily retrievable using ultrasonics with a diamond tip

SAVE \$100! Introductory Offer!

Purchase the Biolight® DRILL-FREE training kit + the Biolight® DRILL-FREE assorted kit - only \$572

BPA-FREE COMPOSITE WITH EXTREME WEAR RESISTANCE

BIO FUNCTION

- Completely FREE of bis-GMA
- Does not contain co-monomers
- Does not release bisphenol-A
- Does not release nano-particles
- Extreme wear resistant (like type III gold)
- Ideal for holistic dentistry, for minimally invasive and conservative dentistry
- Achieving highly and predictable biomimetic results

Take advantage of our quantity prices!

\$136.40 3 @ \$131.10 (ea.) 6 @ \$124.00 (ea.)

Many models to suit
your **2D, 3D, PAN & CEPH** needs

LATEST GENERATION CMOS SENSOR

- Exceptional image quality while reducing X-Ray doses to protect your patients
- Reduced artefact radiation thanks to Owandy's new algorithm

ULTRA-COMPACT DESIGN

The I-MAX PRO range has been designed to be installed in any type of surgery configuration quickly and efficiently.

"FACE TO FACE" POSITIONING

Being in front of the patient creates optimum conditions for correct positioning.

ECO FRIENDLY

With product weight reduced **from 210kg to 62kg**, fewer material resources are needed for Owandy's machines.

SAVE UP TO \$7120! Introductory Offer!

Purchase the Owandy's Imax 3D Ceph Pro OR Imax Ceph Pro and received 1-CADI® Optimum sensor of your choice **FREE of charge!**
